

GABION ASSEMBLY

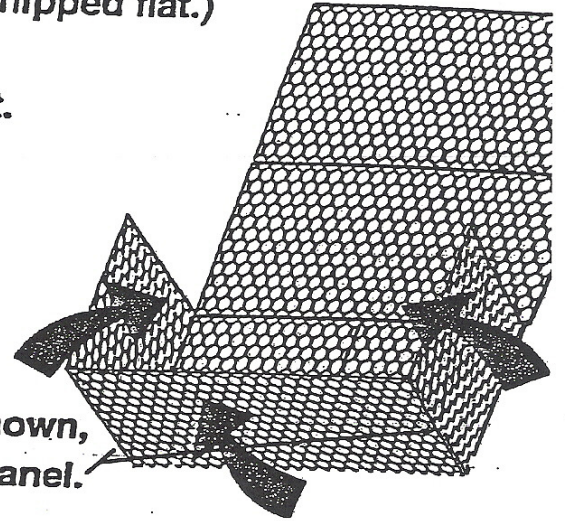

• Colored lines indicate folds.

①

• Remove each gabion from bundle.
(Gabions are shipped flat.)

• Lie gabion flat.

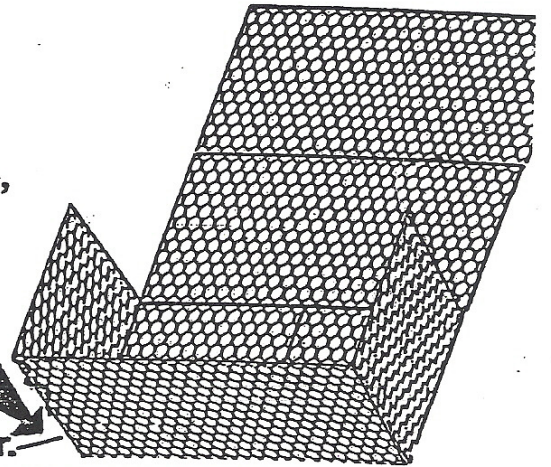

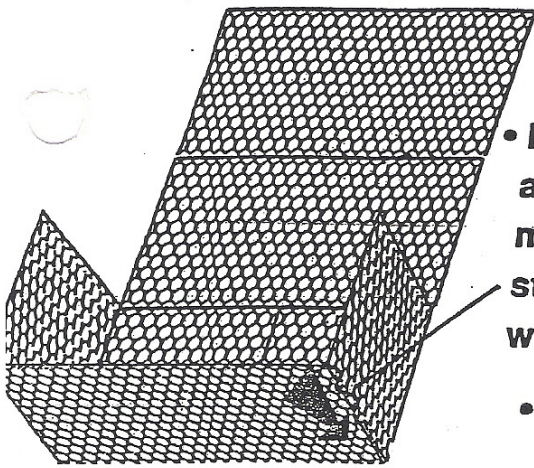

②

• Fold up the ends, as shown, to meet folded front panel.

③

• **IMPORTANT!** To have a square, finished cube, manufacturer suggests starting at this point & working to bottom.

• Repeat procedure to left front corner.

④ • Fold back panel vertically, begin here & attach to end panel & work to top.

⑤

• Repeat procedure to back left corner, working up.

• Repeat procedure on diaphragm.

FOLLOWING THIS PROCEDURE ENSURES A SQUARE BASKET.

⑥

• Close lid to check alignment (Do Not seal).
